ABOUT ME

Informatics Engineering fresh graduate from Universitas Muhammadiyah Jakarta specializing in Full-stack Web Development and Machine Learning. Skilled in end-to-end web application design, encompassing frontend integration, backend logic, database architecture, and RESTful API implementation. Focused on building a career as a Software Engineer and Web Developer, ready to apply predictive data analytics to build efficient software systems.

EDUCATION

Universitas Muhammadiyah Jakarta

2022 - 2026

Bachelor of Science in Informatics Engineering

- GPA: 3.37 / 4.00

RELEVANT EXPERIENCE

Alterra Academy - MSIB Kampus Merdeka Batch 7

Sep 2024 - Jan 2025

Golang Backend Developer

- Built RESTful API services using Golang (Echo) and GORM by implementing Clean Architecture standards.
- Integrated Google Gemini API for intelligent chatbot features and implemented secure authentication utilizing JWT and OTP.
- Managed MySQL databases (Amazon RDS), containerized applications using Docker, and deployed services on AWS EC2.

GEMASTIK - Cybersecurity Division

Nov 2024

Team Member - CTF Competition

- Competed in the national preliminary round of Capture The Flag (CTF) in cybersecurity.
- Utilized Kali Linux and various security analysis tools to solve challenges in Web Exploitation, Cryptography, Reverse Engineering, and Digital Forensics.

DBS Foundation Coding Camp - Dicoding

May 2024

Front-End Web Trainee

- Built responsive and structured web interfaces using HTML5 and CSS3.
- Applied modern JavaScript (ES6) programming logic and syntax for interactive element manipulation on web pages.
- Implemented frontend integration with RESTful APIs to display dynamic data.

SKILLS

- Hard Skills:** Full-Stack Web Development, RESTful API, Machine Learning, Systems Analysis
- Programming Languages & Frameworks:** Golang (Echo), PHP (Laravel), JavaScript (React), Python, SQL
- Networking & Security:** Network Routing, Network Security, Troubleshooting, Vulnerability Analysis
- Software & Tools:** Git/GitHub, Docker, Postman, MySQL, Linux OS
- Soft Skills:** Problem Solving, Team Collaboration, Technical Communication, Project Time Management
- Languages:** Indonesian (Native), English (Intermediate)

CERTIFICATIONS AND TRAINING

- BNSP (LSP Informatika) - Certified Network Administrator (CNA)** Feb 2026
Competencies: Network Topology & Routing, Network Security, Troubleshooting, System Optimization
- Alterra Academy - Certificate of Completion: Golang Backend Development** Jan 2025
Competencies: RESTful API, Golang, Echo Framework, Clean Architecture, Relational Databases
